Important Performance Disclosure

This material is provided solely for informational purposes and does not constitute investment advice, an offer, or a solicitation to buy or sell any securities or investment products, nor does it constitute an agreement to provide investment management or advisory services.

The performance information presented reflects historical results of investment strategies managed, advised, or monitored by Goltsblat Capital and/or its affiliates (the “Firm”). Past performance is not indicative of future results. There is no assurance that any strategy will achieve its stated objectives, generate positive returns, or avoid losses.

Performance results may include discretionary accounts, advisory mandates, model portfolios, or internally managed reference portfolios and may not represent the performance of any single client account. Individual client results may vary materially depending on factors including, but not limited to, timing of investment, cash flows, fees, expenses, tax treatment, restrictions, and market conditions.

Unless explicitly stated otherwise, performance figures are presented gross of management fees, performance fees, transaction costs, financing costs, custody fees, taxes, and other expenses, all of which would reduce net returns. Illustrations showing the growth of a hypothetical investment are for illustrative purposes only and do not reflect the impact of fees, expenses, or withdrawals.

Performance data has been prepared by the Firm based on internal records and information believed to be reliable but has not been independently audited or verified. Certain figures may be based on estimates, assumptions, or reconstructed data due to changes in custodians, mandates, instruments, or reporting standards over time. Actual realized results may differ materially.

The strategies described may involve significant risks, including but not limited to market risk, liquidity risk, credit risk, leverage risk, counterparty risk, interest rate risk, currency risk, and geopolitical risk. An investor may lose some or all of their invested capital.

This material does not take into account the investment objectives, financial situation, or particular needs of any specific investor. Prospective investors should conduct their own independent investigation and consult with their own legal, tax, and financial advisers before making any investment decision.

No representation or warranty, express or implied, is made as to the accuracy or completeness of the information contained herein, and the Firm undertakes no obligation to update this material.
